NCAR/RAL

and

Developmental Testbed Center (DTC)

HAFS Coordination Meeting – 18 Aug2021

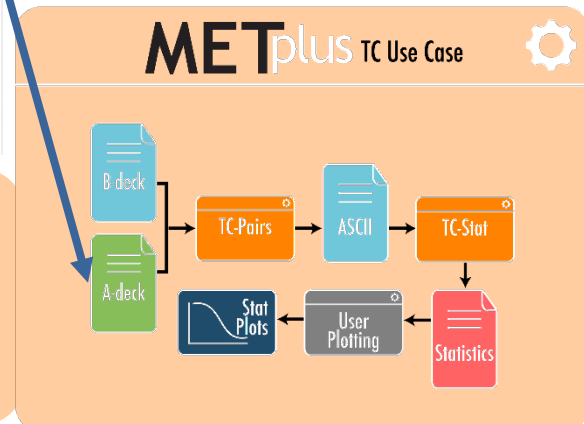

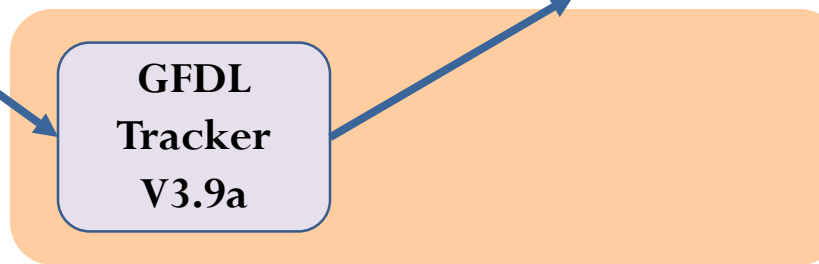

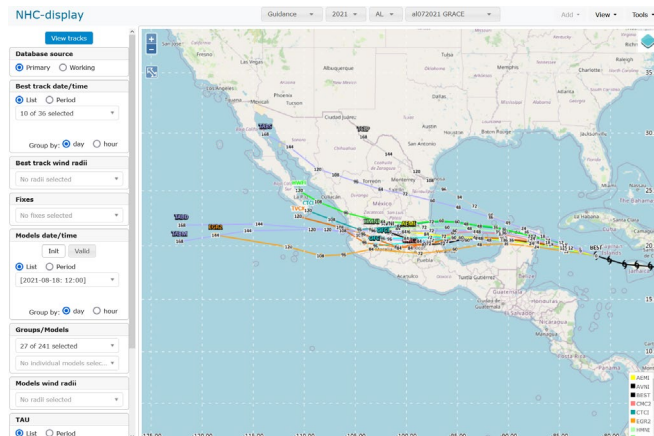

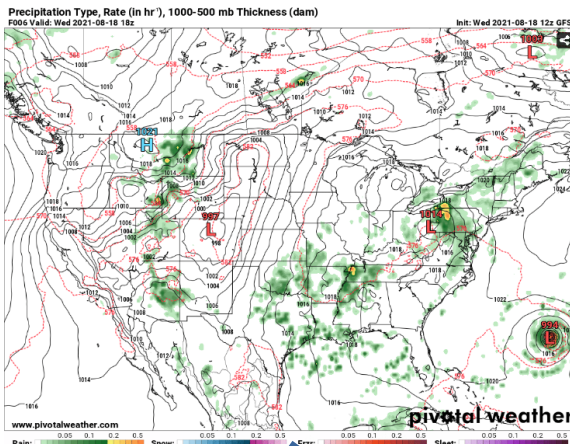

Developmental Testbed Center

NCAR

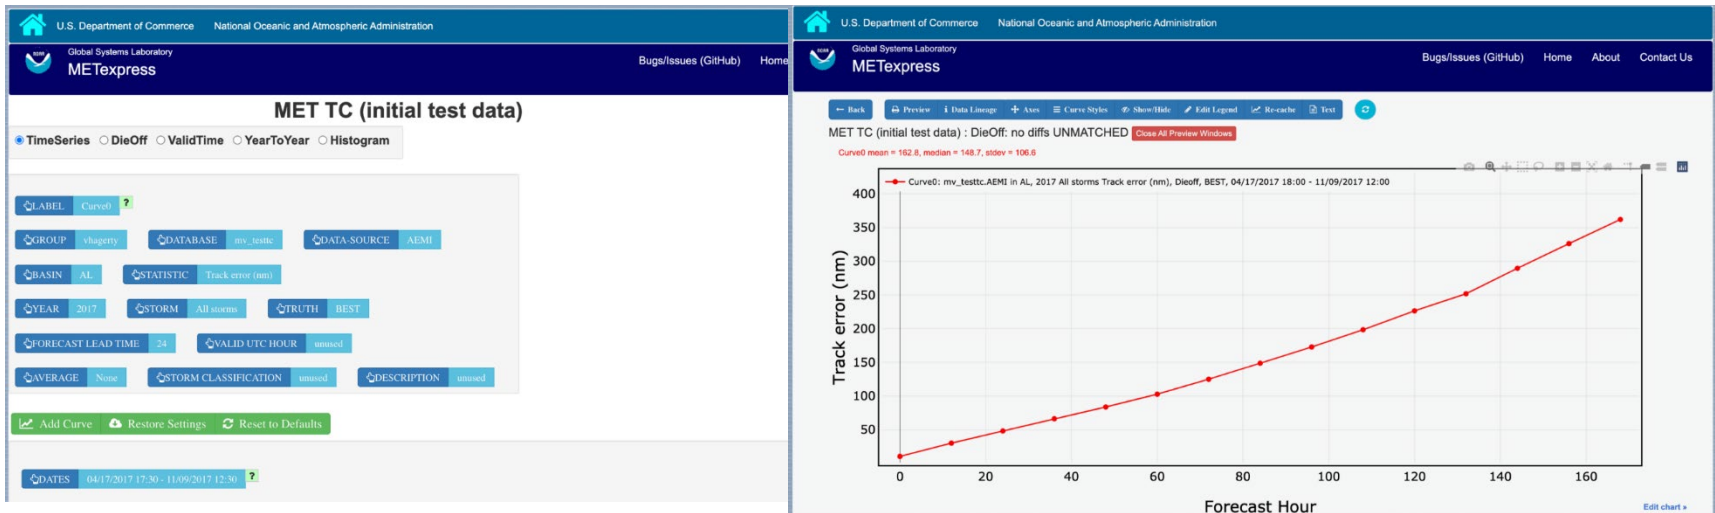

# Recent and In-Progress Development

- Integrate GFDL Tracker into METplus
  - TC tracking completed
  - TC genesis in progress – working with T. Marchok
  - Extra-TC in progress – working with G.P. Lou and T. Marchok

# Recent and In-Progress Development

- METexpress MET-TC App

## Upcoming Development

- Support for E-Decks for Probability of Genesis
- Support for SHIPS diagnostics files
- Plotting MET-TC output via METviewer UI and Scorecards
